Pros and Antis of OPA Put On a Lively Daily Show in Washington

Friends and foes of OPA are making things lively in Washington these days. Marching up Capitol Hill to storm the halls of Congress, a "housewives' army" demanding an extension of the Price Control Act applied biscuit-poster pressure to Senator W. Lee O'Daniel of Texas, as pictured at extreme left. Others bombarded Senator Robert F. Wagner of New York with petitions in his office, as shown above. But OPA took a "panning." nevertheless, from Senator Alexander Wiley of Wisconsin, left, who waves aluminum skillets to emphasize his denunciation of OPA.

Capitalism Needs No Apology

One of our country's best-informed businessmen, Erie A. Johnson, gave a valedictory address Thursday night to sum up what he has learned as presicent of United States Chamber of Commerce during business here and has moved to East Palestine. the last four years.

Mr. Johnston is leaving the presidency of America's largest organization of businessmen to become president of Motion Picture Producers-Distributors of America, succeeding Will H. Hays. In his farewell by the six rural carriers at the local postoffice. address to the Chamber of Commerce, he talked about capitalism and its prospects in the next decade. and the circumstances of his remarks, Mr. Johnston of bankruptcy. made possible the most important speech of the year.

He told his listeners-and this capitalist nationthat American business must develop a new form of capitalism or face the same consequences which have displaced capitalism in other nations.

He proposed a new dimension for democratic capitalism-a dimension of expanding promise. After four years of continuous study of economic systems throughout the world, Mr. Johnston still sees capitalism-a new kind of capitalism-as man's best hope. But capitalism cannot stand still. It cannot look backward. It must adapt itself to new condi- for the summer vacation. tions, refire men's imaginations, make itself dynamic.

Capitalism needs no apology for what it has done "other systems promise their people the good Tuesday. things of life . . . We've got them. Other systems strive to perpetuate themselves on promises. We pitch our standards on performance.'

For the future, then, capitalism needs to have, first of all, an accurate definition of its aims. Mr. Johnston proposes this one:

"Capitalism is a competitive economic system designed for the enrichment of the many and not to make a few men rich."

With its purpose thus defined it needs next to implement purpose with practice. "The old capitalism, despite its sins," says Mr. Johnston, "built a great United States. The new capitalism can build a great united people . . . only a united people can make proas in theory."

In brief, a system that has given Americans more benefits than people ever gained from any other economic system needs only to be adapted to modern circumstances to continue to give them more benefits than they stand to gain from any other system.

"We must quit looking at the status quo as a finishing line and learn to treat it as a starting line for the new capitalism now emerging." declares Mr. Johnston. "Under the old or standpat conception of capitalism, people seem merely the inert tools of the system. Under the new, or progressive conception the system is a tool in the hands of the people. It is to be used, but not abused, for the general welfare and the good of all."

The rest of Mr. Johnston's address Thursday nigh consisted, significantly, of proposals so well-known so widely-discussed that none of them is novel a either theory or practice. They are equitable regula tions, mimimum wages, profit-sharing, antimonopoly restrictions, annual wages-all adding up to more peoble owning and using more things.

Mr. Johnston believes the goal of the new capitalism should be to make every man a capitalist. "Our destiny," he told his businessman audience, "is to create the new capitalism . The law of life applies: adapt or die . . . America avert regret and substantial losses. created a new form of government. America created a new form of mass production. In other words, the commission believes that eating is too important to be left to chance, inefficient personnel, guesswork, improvisation, bungling by people with nothing else to do and people who regard it as punishment to be found inside a kitchen. Cope's Living Rooms Express The Women Of Today

 The woman of today likes the smartness and charm of GOOD FURNITURE the trend for smart and upto-date things is very evident in the clothes she wears, her home and, most particularly, in her choice of furnismartness and up-to-dateness need not be sacrificed for comfort because both are readily recognized in COPE'S living room furniture.

 All spring construction guarantees that comfort—the styling and the selection of fabrics guarantees that well kept appearance that every home strives for COPE'S living room furniture is indeed the sound approach to lasting home decoration!

"THE HOUSE OF COPE"

Cope's Living Rooms Express The Women Of Today

 The woman of today likes the smartness and charm of GOOD FURNITURE ... the trend for smart and upto-date things is very evident in the clothes she wears, her home and, most particularly, in her choice of furnismartness and up-to-dateness need not be sacrificed for comfort because both are readily recognized in COPE'S living room furniture.

 All spring construction guarantees that comfort—the styling and the selection of fabrics guarantees that well kept appearance that every home strives for ... COPE'S living room furniture is indeed the sound approach to lasting home decoration!

General Economic Paralysis Looms in National Coal Crisis

A GRADUAL FREEZING of industry's production lines, curtailment of transportation, a shutdown of power plants and general economic paralysis within a short time is the forecast from all parts of the nation should John L. Lewis, inset, and his United Mine Workers not come to an agreement soon with coal mine operators to end the over-a-month-long strike. The ODT in Washington has ordered, effective May 10, a general embargo on railroad freight and on May 15, 50 per cent reduction in passenger service, while

Director J. Monroe Johnson reveals "much more severe orders will be necessary" should the strike continue. At the same time, drastic cuts are being made in industry, where coal supplies are dwindling, and "brownouts" more stringent than war-time curfews are scheduled for large cities, where power plants will be forced to close for lack of fuel. The only hope seen for imminent settlement is in the meeting of Lewis with his U. M. W. 250-man policy committee scheduled for Tuesday in Washington. (International)

WITH THE GRAND opening of the 1946 softball season in Salem scheduled for 5:45 p. m. Monday at both Centennial park diamonds, the hundreds of fans and players who participate in one way or another are lestined to see a lot of new features in the competition this year. Besides the extremely large entry, which entailed forming the nine eam American and National leagues, new rules will be in effect, new players will be in action and a new system of league operation will be

AN EXPLANATION OF THE league system this year might be interesting to those not quite familiar with the plans.

Assume that from here on the "league" mentioned is your league

and remember that figures are for one league or one team, as will be A team will play 24 regularly scheduled games, beginning Monday

and extending into late August. That will mean that a team will meet each of the other eight teams in its league three times during When that schedule is completed the top four teams in the league, by percentage ratings in games won and lost, will move into a Schaughnessy type playoff for the league championship.

THE SHAUGHNESSY PLAYOFF This move will greatly enhance means that the team ranking No. 1 the practice of bunting.

THIS INNOVATION BRINGS Salem softball to a system similar to that used in the American Association-International league "Junior World Series" since 1932 and is also like the system employed annually in major hockey leagues.

The new set-up will entail, mainly, these changes: No longer will the season be

broken into "rounds." There will be no drawn-out 'round" playeffs before a new round can begin, as was the case

in 1945. Only league champions will meet in the city series in the fall, not "round" champions as be-

A broad attack on meat price controls has been made by large segments of the meat industry and by some farm-state members of congress. Speaker Rayburn (D-Texas) yesterday joined the latter camp by coming out for abandoncamp by coming out for abandon-ment of "all controls," including price, on beef.

Faulty Chair Saves 17-Year-Old Youth From Electrocution

(By Associated Press) ST. MARTINSVILLE, La., May 4. -A 17-year-old Negro who sur vived being strapped in the electric chair and having the switch thrown, said that "it tickled a little but didn't hurt much."

The 150-pound youth, Willie Francis, today was in a death cell in the Iberia parish jail at New Iberia while state legal authorities wondered whether another attempt could ever be made, under the law, to electrocute him.

The Negro was strapped in the chair yesterday and the current was turned on. He squirmed and then astounded attendants by yelling under the hood, "Take it off! "Take it off!" Francis said "the Lord was with

me" when he was taken from the faulty chair, and later in a death cell interview said that he was "thinking of going to heaven" when the switch was thrown. Governor Jimmie Davis granted

six-day reprieve. Sheriff Leonard Resweber said he would attempt to to have the execution carried out In the interview Francis, who was

convicted of slaying Andrew I. Thomas, a St. Martinsville druggist, said he thought "it would hurt a when the switch was thrown and that he had difficulty in breath-24 hours rifle and gredanes had ing with the straps and hood over
